

Bruker (Formerly Varian)

Bruker Autosampler Products

- Our glass products are borosilicate USP class 1
- Strain point : 535° C
- Please note that some manufacturers refer to 2mL vials as 1.5mL or 1.8mL

Most chemists prefer 10mm wide mouth vials (VT010M-1232) and caps w/PTFE septa (C06050BC-10).

Also available in a clamshell.

For Biopharma applications, we recommend a PTFE/Silicone liner.

Our recommended vials, caps and inserts are specifically designed and made for Marathon Spark(Holland) autosamplers, which Bruker LC's are outfitted with.

Bruker autosamplers use a 8mm thread screw vial as well as the more convenient 10mm thread screw vials (sometimes called ABC or Wide Mouth vial).

Screw Vials, Caps and Inserts

Ordering Information - 2mL Screw Vials, 12 x 32mm, 10mm Opening

PART NO. (100pk)	DESCRIPTION
VT010M-1232	2mL Clear Big Mouth Glass Screw Vial with Marking Spot
VT010M-1232A	2mL Amber Big Mouth Glass Screw Vial with Marking Spot

Ordering Information - Inserts

PART NO. (100pk)	DESCRIPTION
I005BS-625	50µL Glass LV Insert with Bottom Spring*
I025BS-629	250µL Glass Conical Insert with Bottom Spring
I025-630	350µL Glass Flat Bottom Insert
I025GF-631	250µL Glass BM Hanging Conical Point Insert
I025PBS-629	250µL Polypropylene Insert with Bottom Spring

* Please note that 50µL glass inserts actually hold a larger volume
